SUMMARY

Software Engineer with over 2+ years of hands-on experience designing and developing distributed systems. Specialized in building high-performance applications using Node.js and PHP-based frameworks. Strong expertise in applying Software Engineering best practices, including Clean Code principles, optimized database design, and RESTful API architecture. Proven experience managing the full Software Development Life Cycle (SDLC) from system requirements analysis through development, testing, and deployment across 10+ production-scale projects.

EXPERIENCES

The One Retail

Software Engineer

October 2025 – Present

- Delivered 40+ feature enhancements / change requests across systems including CRM, SCM, PRM, HRIS, E-commerce, and other enterprise system
- Resolved 60+ production issues, reducing recurring bugs and improving system stability by 30% & improved performance in several modules, reducing load time and query execution by 20-40%
- Collaborated with cross-functional teams (Project Manager, QA, stakeholders) to deliver 10+ releases / iterations on schedule
- Worked across multiple frameworks (Laravel, Next.js, Angular, Vue.js, Livewire), adapting quickly to different architectures and legacy systems

Bocorocco

Programmer

August 2025 – October 2025

- Led the development and integration of the Lion Parcel shipping system with the Bocorocco Entrepreneur platform, resulting in more efficient logistics and fully automated order fulfillment.
- Led the development of a new high-performance website for Bocorocco Entrepreneur using CodeIgniter, PHP, and JavaScript, collaborating with a cross-functional team of 6 developers.
- Built a stockist management system to streamline inventory and distribution, ensuring better support for business partners.

Programmer Intern

May 2025 – August 2025

- Maintenance and development of the Bocorocco website (admin and user) using PHP, CodeIgniter, JavaScript, jQuery, and MySQL, including database query optimization and performance improvement.
- Development of an offline payment system, pickup counter, and pickup queue for the Grand Launching of Bocorocco Entrepreneur BOSS 2025, serving approximately transaction of 1,500 visitors smoothly within just 1 week of development time.
- Familiar with real-time bug fixing, cross-team event collaboration, and using Git for version control.

Indi Technology*Fullstack Web Developer Intern**August 2024 – December 2024*

- Awarded "Best Intern in the Fullstack Division"
- Actively contributed to three key projects, including Getcrew, Geoportal Laut Berkah, and Event Management Ticketing System, improving functionality and user experience
- Developed user-friendly frontend interfaces using Next.js, React.js, Tailwind CSS, and TypeScript, and built scalable backend with Laravel and Django
- Enhanced collaboration by conducting code reviews and improving project quality through clean, efficient, and reusable code.
- Gained hands-on experience with modern tech stacks such as React.js, Next.js, Laravel, Django, and Leaflet, broadening technical knowledge in web development.

Directorate General of Civil Aviation*Internship**January 2020 – March 2020*

- Responsible for processing Dangerous Goods licenses by verifying data, data entry, and printing licenses in accordance with established policies and procedures.
- Responsible for administration task such as drafting letter, internal memos, other related documentation.
- Responsible for Troubleshooting and network installation such as making CAT 6 Lan Cable and connecting them to network switch in server room.

EDUCATION

Budi Luhur University*2021 – 2025**Bachelor Of Computer in Information System*

- GPA: 3.92 / 4.00
- Relevant Coursework: Database Design, Web Development and Engineering, Mobile Programming, UI/UX Design, Business Process and Systems Modeling, Object Oriented Programming, Data Mining, Search Engine Optimization, Project Management, Data Structure & Algorithm, etc.

Activity & Achievement :

- Graduated as "Best Graduate" with outstanding academic achievements.
- Actively participated in MSIB Kampus Merdeka Batch 6 by enrolling in the Fullstack Web Development course at Binar Academy through the "Studi Independen" program.
- Joined MSIB Kampus Merdeka Batch 7, completing a certified internship at PT Indi Teknokreasi Internasional (Indi Technology) as a Fullstack Web Developer, contributing to real-world projects and gaining valuable industry experience.

Binar Academy*February 2024 – July 2024**Fullstack Web Development*

- Achieved "The Most Progressive Student" in FSW1 class
- Assisted class leader in managing communication for 25 students and facilitator.
- Achieved an average score of 99/100 across 7 project challenges.
- Led backend development for group final project.
- Developed a fullstack web application using React.js, Next.js, Express.js and Node.js, enhancing user experience and functionality.

PROJECTS

- **Full-stack Website & Mobile** – The One Retail Internal Project (Confidential) – *Angular, Ionic, Mysql, Livewire, Vue.js, Laravel*
- **Full-stack Website** – @akbarrahmatm Personal Website – *Laravel, Remix.js, Filament PHP, Tailwind CSS, MySQL*
- **Full-stack Website** – Bocorocco Internal App (Confidential) – *Codeigniter, Mysql, Bootstrap, PHP*
- **Full-stack Website** – Event Management System – *Laravel, PHP, Tailwind CSS, MySQL*
- **Front-end Website** – Getcrew (Admin Site) – *Next.js, Javascript, Tailwind CSS, Axios*
- **Front-end Website** – Getcrew (Employer Site) – *Next.js, Typescript, Tailwind CSS, Axios*
- **Full-stack Website** – Geoportal Laut Berkah – *React.js, Javascript, Tailwind CSS, Django, Leaflet*
- **Full-stack Website** – Airseat – *Node.js, Express.js, PostgreSQL, Nodemailer, Supabase, Google Cloud Platform, React.js, TailwindCSS, Netlify & Axios*
- **Front-end Website** – CariMHS (Consume PDDIKTI Public REST API) – *React.JS, Vite, Tailwind & React Router*
- **Front-end Website** – Binar Car Rental Search – *React.JS, Vite, & React Router*
- **Front-end Website** – Car Management – *React.JS & Vite*
- **Full-stack Website** – Car Management Admin Dashboard – *Node.js, Express.js, EJS, Bootstrap*
- **RESTFul API** – Tour & Travel REST API – *Node.js, Express.js, & JWT*
- **RESTFul API** – Binar Car Management API – *Node.js, Express.js, & JWT*
- **Website** – Scented Fowdie Landing Page – *Wordpress & Elementor*
- **Website** – BLStyle E-Commerce – *Wordpress & Woocommerce*
- **Website** – Permata Medika Hospital Company Profile – *Joomla*
- **Full-stack Mobile** – Carikelontong Mobile App – *Android Studio Java, Codeigniter, Mysql,*

SKILLS

Hard skills :

- **Frontend Development :**
Angular, React.js, Vue.js, Tailwind, Redux, Bootstrap, Material ui, & Shaden.
- **Backend Development :**
Django, Laravel, Express.js, & Node.js
- **Fullstack Development :**
Codeigniter, Laravel, Next.js, & Remix.js
- **Mobile Development :**
Android Studio (Kotlin & Java) & Ionic
- **Database :**
Mysql, Postgresql, SQLite, & MongoDB
- **Devops & Infrastructure :**
Debian, Docker, Google Cloud Platform, Grafana, Jenkins, Prometheus, & Ubuntu
- **Testing Tools :**
Jest, PHPUnit, & Supertest

Soft skills : Leadership, Responsibility, Communication, Teamwork, Critical Thinking, Time Management, & Problem Solving.

Language: Indonesia & English.

CERTIFICATION

- **Certificate Of Appreciation “The Most Progressive Student”** | *Binar Academy* | July 2024
- **Certificate Of Completion “Fullstack Web Development Wave 6”** | *Binar Academy* | July 2024
- **Growth Mindset: The Power of "I Think I Can"** | *Binar Academy* | March 2024
- **How to Master Time Management?** | *Binar Academy* | March 2024
- **Let's Build Feedback Culture** | *Binar Academy* | March 2024
- **MonsoonSim ERP** | *FTI Budi Luhur University* | December 2023
- **Algorithm Certification** | *FTI Budi Luhur University* | May 2023
